

After Sales Service

Ensuring the highest-quality equipment, service and support after sale.

Experience

- Quality service and 100% satisfaction is what you'll get when you send your cryogenic equipment to Chart Ferox for repair.
- Skilled in vacuum investigation, re-insulation, piping repair and sand blasting and new painting, our workers restore your equipment to full operating condition.
- We prepare a formal estimate for authorization prior to initiating work, including pictures of the proposed equipment repairs.
